

ERIC PORTELA

B.SC. COMPUTER SCIENCE & ENGINEERING (LTH, YEAR 2)

20 February 2023

Hi!

Are you looking for a student with a great interest and curiosity for object-oriented programming, modeling and design, especially in Java and Swift, as well as knowledge in Git, FireBase, MySQL, Z shell etc.?

My name is Eric Portela. I am a 23-year-old focused and responsible student currently pursuing a Bachelor's degree in Computer Science at LTH and have a strong passion for software development. My plan is to eventually complete a Master of Science in Engineering. I am writing to express my interest in the summer programming position. I am confident that my academic background and previous experience make me a strong candidate for this position.

During my studies, I have gained a solid understanding of programming concepts, including object-oriented programming, data structures, algorithms, and databases. I have also had the opportunity to put my skills into practice through various course projects and various positions within the field. I am a quick learner, a team player, and have a strong work ethic. I am also confident in my ability to communicate effectively with both technical and non-technical stakeholders.

Until the turn of the year, I was employed as a teaching assistant at the Department of Computer Science at LTH for a programming course in Java. My duties included assisting and guiding students on how to tackle various tasks and problem solving, as well as evaluating students' laboratory work and assignments. I also worked as a Quantitative Analyst at LINC, where I was part of building an algorithm that detected reversal chart patterns in currency pairs.

I believe that a strong desire to learn, persistence, and a high degree of responsiveness will take you far. Therefore, I am looking for a work environment where students can be given space to grow and where they are expected to contribute, but also given space to fail, and perhaps most importantly - to learn from them. I hope that I have caught your interest and look forward to hearing from you.

Thank you for considering my application. I am eager to bring my skills and enthusiasm to this role during the summer. I would be happy to provide further information or to schedule an interview at your convenience.

Best regards,
Eric Portela

PERSONAL INFORMATION

 Bryggaregatan 40

SKILLS (TECHNICAL)

- Swift (UIKit/SwiftUI)
- Java
- Python (Django)
- Git
- Z shell
- MySQL
- Firebase
- REST API Consumption
- Web Scraping
- HTML5/CSS3/SCSS
- UI Design in Sketch
- VS Code
- XCode
- Eclipse
